EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

a) In the Title

Replace title with: --Method of Nitrogen Doping of Fluorinated Silicate Glass (FSG) while Removing the Photoresist Layer--

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: In claim 18, the limitations of lines 7-9, "removing the photoresist layer and substantially simultaneously introducing nitrogen dopants into the fluorinated silicate glass layer by subjecting the photoresist layer and the fluorinated silicate glass layer to a plasma formed from a nitrogen-containing gas; wherein the plasma contains no oxygen species" can not be found in the prior art of record. The prior art of record neither anticipates nor renders obvious the claimed invention as a whole.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
